

The Finnish Film Foundation is an independent foundation under the guidance of the Ministry of Education and Culture. The aim of the Film Foundation is to promote high-quality, diverse and innovative film production in Finland. The Foundation grants support for the professional production, screening and distribution of films in various distribution channels. The Foundation is also responsible for the export of Finnish films, promoting the internationalisation of Finnish films and filmmakers and distributing support for the international promotion of films. The Foundation grants support for nationally significant international film festivals in Finland.

The Finnish Film Foundation receives its funds from Veikkaus and the Finnish gaming system from the monies allocated to the government's budget for the promotion of film. The Film Foundation's support is discretionary and falls under the Act of Discretionary Government Transfers and act on the government promotion of film culture. The support is granted based on applications.

The aims and specific criteria of the support vary across support types. They have been described in support-specific grant announcements and in this guide. The grant announcement defines for whom the support is intended and who may apply. The Film Foundation's support is granted for professional operations.

#### **ACT ON THE GOVERNMENT'S SUPPORT FOR THE PROMOTION OF FILM CULTURE (1174/2018)**

The aim of the act is to promote

- 1) diverse and professional Finnish film production
- 2) the broad supply and distribution of films
- 3) the internationalisation of Finnish films and filmmakers
- 4) film culture and its development.

Participation, pluralism, cultural diversity and artistic freedom form the basis for reaching this aim.

(Act on the government's support for the promotion of film culture, section 2)

The Foundation's grants are based on the act on the government's support for the promotion of film culture (1174/2018). The grants apply the Act on Discretionary Government Transfers (688/2001). The Foundation follows the Administrative Procedure Act, the Act on the Openness of Government Activities (621/1999), the Language Act (423/2004), the Sámi Language Act (1086/2003), the Archives Act (831/1994), the Act on Electronic Services and Communication in the Public Sector (13/2003) and the Privacy Protection Act (9/2018).

#### **ACCESS TO DOCUMENTS**

According to the Act on the Openness of Government Activities (621/1999), a document submitted to the Finnish Film Foundation is public. Documents may also be designated confidential under the law or access to them may be discretionary. Confidential official documents include documents that contain information about private business or trade secrets.

#### **BLOCK EXEMPTION REGULATION**

The support granted by the Foundation is government aid that falls under the EU's Treaty, Article 107, and the decision by the EU Commission on 26 November 2008 concerning subsidies for the Finnish film industry (Commission regulation (EU) 651/2014), later block exemption regulation (BER).

Support granted by the Foundation must fulfil conditions listed in the BER's Articles 1–9 (general regulations) and Article 54 (aid schemes for audiovisual works).

According to the BER, support must be directed to a cultural product and can be granted for the production of audiovisual works, pre-production and distribution. According to section 3 of the act on the promotion of film, support may be granted for the production and distribution of films if the film can be considered an independent work of art, its content is based on cultural values originating in cultural identity and the film involves a significant artistic contribution by creators and performers whose wages and salaries form a significant portion of the production costs.

According to the BER's Article 53 (aid for culture and heritage conservation), the support may be granted for festivals and other similar cultural activities. According to the Article, support may take the form of either operating or investment aid.

According to the BER's general regulations, **the support should not be applied** to cases where the recipient would execute their project with or without the support, government support that has conditions or financing methods that do not follow EU legislation and especially support measures where the recipient is required to operate mainly from or in the country granting the support. However, the requirement that the recipient has a place of business or a subsidiary in the country granting the support is permissible.

An unconditional requirement is that the support cannot be granted to a corporation which is subject to an outstanding recovery order following a previous Commission decision declaring the aid illegal and incompatible with the internal market (BER, Article 1, Section 4 a).

## How and when to apply?

Applications are submitted online (<https://hakemus.ses.fi>) by sending in the application and appendices to the Finnish Film Foundation before the deadline noted in the grant announcement. The application period ends at midnight on the final application day.

**Submission dates of the scriptwriting grant applications vary according to the type of film. Information about the application periods is available on the Film Foundation's website under Grant Announcements and deadlines:** <https://ses.fi/en/funding/grant-announcements-and-deadlines/>

New applicants must register to the online application system. New registrations are processed within a week.

Prior to submitting an application, the applicant must carefully read the relevant grant announcement and support guide.

Applicants fill in an application in the online application system that consists of an electronic application form and the necessary appendices that are uploaded into the system.

The applicant is responsible for submitting the application within the deadline. It is therefore important to prepare for unexpected delays and reserve enough time to draft the application. Applications submitted after the deadline are transferred to the next application period.

The applicant does not select a film commissioner for the application. **The application is directed to The Finnish Film Foundation. The Film Foundation designates a film commissioner for the application.**

### Documentaries

The applicant receives information of the application's film commissioner in the application's general information after a week from the deadline has passed.

Documentary scriptwriting grant film commissioners:

Piia Nokelainen

Pekka Uotila

If the documentary project has previously received support from the Film Foundation, the Foundation designates the same film commissioner for the new application.

### Feature-length, short and serialised fiction, animation or children's film or a combination thereof:

The Film Foundation appoints Kaisu Isto as the film commissioner.

## A good application and smooth communication

The Film Foundation processes approximately 150–200 applications each application period and the production department makes roughly 1,000 decisions each year. It is essential for the evaluation and comparison of the applications that the application is clear and carefully prepared.

Be clear and relate the essentials in your application. Consider also how the support corresponds to its goals and what is special about this particular film.

### **Fluent processing and communication**

When uploading appendices, make sure that

- the name of the appendix corresponds to its content
- the forms include the date
- fill in the scriptwriting plan according to the Foundation's model as completely as possible and refrain from referring to appendices

When you email the Foundation during any stage of the project, mention your application number and the name of the project.

Please note that the Film Foundation's online system does not automatically inform the Foundation's employees of updated information or appendices. Inform the film commissioner or the production coordinator mentioned below about the matter via email.

### **How are the applications evaluated?**

The scriptwriting grant is discretionary. The evaluation and comparison of the applications is based on an overall assessment that considers the purpose of the funds, the grounds mentioned in the grant announcement and available funds in the budget.

The scriptwriting grant application is evaluated as a whole in terms of content and artistic merit. In addition, the evaluation takes into account the applicant's artistic and professional skills that contribute to the completion of the project. Other support previously granted by the Film Foundation to the applicant is also taken into account.

The Film Foundation may request further information if it deems it necessary for the decision-making process.

A prerequisite for granting the support is that the recipient has complied with earlier support agreements and met their conditions.

### **How are the decisions made?**

The Finnish Film Foundation's Board decides on the scriptwriting grant based on the suggestions of a film commissioner.

The applicant receives a written decision that contains the conditions of the support and a claim for corrections with instructions.

The Foundation aims to make decisions in 8–10 weeks after the deadline.

The support may only be used for its designated purpose.

The decision is based on the act of government funding for the advancement of cinema (1174/2018), the Act on Discretionary Government Transfers (688/2001) and the Administrative Procedure Act (434/2003).
