The Finnish Film Foundation is an independent foundation under the guidance of the Ministry of Education and Culture. The aim of the Film Foundation is to promote high-quality, diverse and innovative film production in Finland. The Foundation grants support for the professional production, screening and distribution of films in various distribution channels. The Foundation is also responsible for the export of Finnish films, promoting the internationalisation of Finnish films and filmmakers and distributing support for the international promotion of films. The Foundation grants support for nationally significant international film festivals in Finland.

The Finnish Film Foundation receives its funds from Veikkaus and the Finnish gaming system from the monies allocated to the government's budget for the promotion of film. The Film Foundation's support is discretionary and falls under the Act of Discretionary Government Transfers and act on the government promotion of film culture. The support is granted based on applications.

The aims and specific criteria of the support vary across support types. They have been described in support-specific grant announcements and in this guide. The grant announcement defines for whom the support is intended and who may apply. The Film Foundation's support is granted for professional operations.

### ACT ON THE GOVERNMENT'S SUPPORT FOR THE PROMOTION OF FILM CULTURE (1174/2018)

The aim of the act is to promote

- 1) diverse and professional Finnish film production
- 2) the broad supply and distribution of films
- 3) the internationalisation of Finnish films and filmmakers
- 4) film culture and its development.

Participation, pluralism, cultural diversity and artistic freedom form the basis for reaching this aim.

(Act on the government's support for the promotion of film culture, section 2)

The Foundation's grants are based on the act on the government's support for the promotion of film culture (1174/2018). The grants apply the Act on Discretionary Government Transfers (688/2001). The Foundation follows the Administrative Procedure Act, the Act on the Openness of Government Activities (621/1999), the Language Act (423/2004), the Sámi Language Act (1086/2003), the Archives Act (831/1994), the Act on Electronic Services and Communication in the Public Sector (13/2003) and the Privacy Protection Act (9/2018).

### ACCESS TO DOCUMENTS

According to the Act on the Openness of Government Activities (621/1999), a document submitted to the Finnish Film Foundation is public. Documents may also be designated confidential under the law or access to them may be discretionary. Confidential official documents include documents that contain information about private business or trade secrets.

### BLOCK EXEMPTION REGULATION

The support granted by the Foundation is government aid that falls under the EU's Treaty, Article 107, and the decision by the EU Commission on 26 November 2008 concerning subsidies for the Finnish film industry (Commission regulation (EU) 651/2014), later block exemption regulation (BER).

Support granted by the Foundation must fulfil conditions listed in the BER's Articles 1–9 (general regulations) and Article 54 (aid schemes for audiovisual works).

According to the BER, support must be directed to a cultural product and can be granted for the production of audiovisual works, pre-production and distribution. According to section 3 of the act on the promotion of film, support may be granted for the production and distribution of films if the film can be considered an

independent work of art, its content is based on cultural values originating in cultural identity and the film involves a significant artistic contribution by creators and performers whose wages and salaries form a significant portion of the production costs.

According to the BER's Article 53 (aid for culture and heritage conservation), the support may be granted for festivals and other similar cultural activities. According to the Article, support may take the form of either operating or investment aid.

According to the BER's general regulations, **the support should not be applied** to cases where the recipient would execute their project with or without the support, government support that has conditions or financing methods that do not follow EU legislation and especially support measures where the recipient is required to operate mainly from or in the country granting the support. However, the requirement that the recipient has a place of business or a subsidiary in the country granting the support is permissible.

An unconditional requirement is that the support cannot be granted to a corporation which is subject to an outstanding recovery order following a previous Commission decision declaring the aid illegal and incompatible with the internal market (BER, Article 1, Section 4 a).
